Sum It Up	16

# Rain Forests

- ♥ Tropical rain forests are home to millions of different plants and animals.

- ♥ Compare these plants and animals to those in your neighborhood to see how they differ.

Write the total number of animals on the page.

- ♥ Write a list showing how many different animals there are on the page.

- million
- compare
- different
- total

- All the tropical rain forests in the world are near the equator,
- around the middle of the Earth.

FACT!

*There are 30,000 different kinds of flower and 4,000 different kinds of tree in the Amazon rain forest.*

- The Amazon rain forest is in South America. There are also tropical rain forests in Australia, Africa, and Asia.
- List 4 countries with no rain forests.
