Dog

Chapter 1

The Design

Scott and I took our sketches out to the garage. We were going to build the coolest skateboard ramp ever.

Mom thought it was a great idea.

“Boys, I think that is a great idea. Stay outside as long as you want.”

Scott and I had skated all the paths around TC Park.

We had even tied Dog to our skateboards. He towed us around. It was awesome.

Unfortunately, we were still not going fast enough to do tricks.

Then we thought of the backyard. It was a good place for a skateboarding ramp.

The ramp would go from the top of the picnic table, down to the ground, then up to the top of the doghouse.

There was plenty of wood and metal in the toolshed—everything we needed.
