

We Are Alike, We Are Different

Text and photos by Carolina Cisneros

Chase and Jimmy are friends. They are alike and they are also different. Chase and Jimmy are alike because they are both boys and they are both six years old. They are also alike because they are in the same kindergarten class.

Chase and Jimmy are also different. Chase is taller than Jimmy. Chase likes to play with dinosaurs. Jimmy likes to play with blocks.

Chase and Jimmy are alike, they are different, and they are friends.

J'Niya and Andrés are friends.

They are alike and also different.

J'Niya and Andrés are alike because they are both students in Mrs. Landy's class. They are both in kindergarten, and they are both six years old.

They both like to read on the rug. J'Niya likes to read books about animals. Andrés likes to read stories about cars and trains.
