

It Started As a Seed

Before Reading	During Reading	After Reading
<p>Q1: Let's read the title and look at the cover. What things started as seeds?</p> <p>A1: Flowers started as seeds. Carrots and oranges started as seeds. Wheat and peanuts started as seeds. They started from seeds and grew into plants.</p> <p>Q2: Think about your breakfast foods this morning. What foods started as seeds?</p> <p>A2: Answers will vary: My toast started as seeds. My orange juice started as a seed.</p>	<p>Q1: Seeds grow into plants. People use plants for many things. What do we use the peanut plant for? An oak tree? An orange tree? Wheat plants?</p> <p>A1: We make peanut butter from the peanut plant. We build things from the wood of an oak tree. We make juice from oranges from the orange tree. We make flour from wheat. Then we make bread from flour.</p> <p>Q2: What grew in the garden?</p> <p>A2: Lots of vegetables grew in the garden. Flowers grew in the garden too.</p>	<p>Q1: What grew in the flower garden?</p> <p>A1: Purple, pink, yellow, and white flowers grew in the flower garden.</p> <p>Q2: Why do we grow flowers?</p> <p>A2: Answers will vary: We grow flowers because they make the world pretty. We give flowers as gifts. We grow flowers to make the bees happy.</p>

It Started As a Seed

It started as a seed.
It grew and grew. It became a peanut plant.

We can make peanut butter from the peanuts.
