

A Tree Is a Home

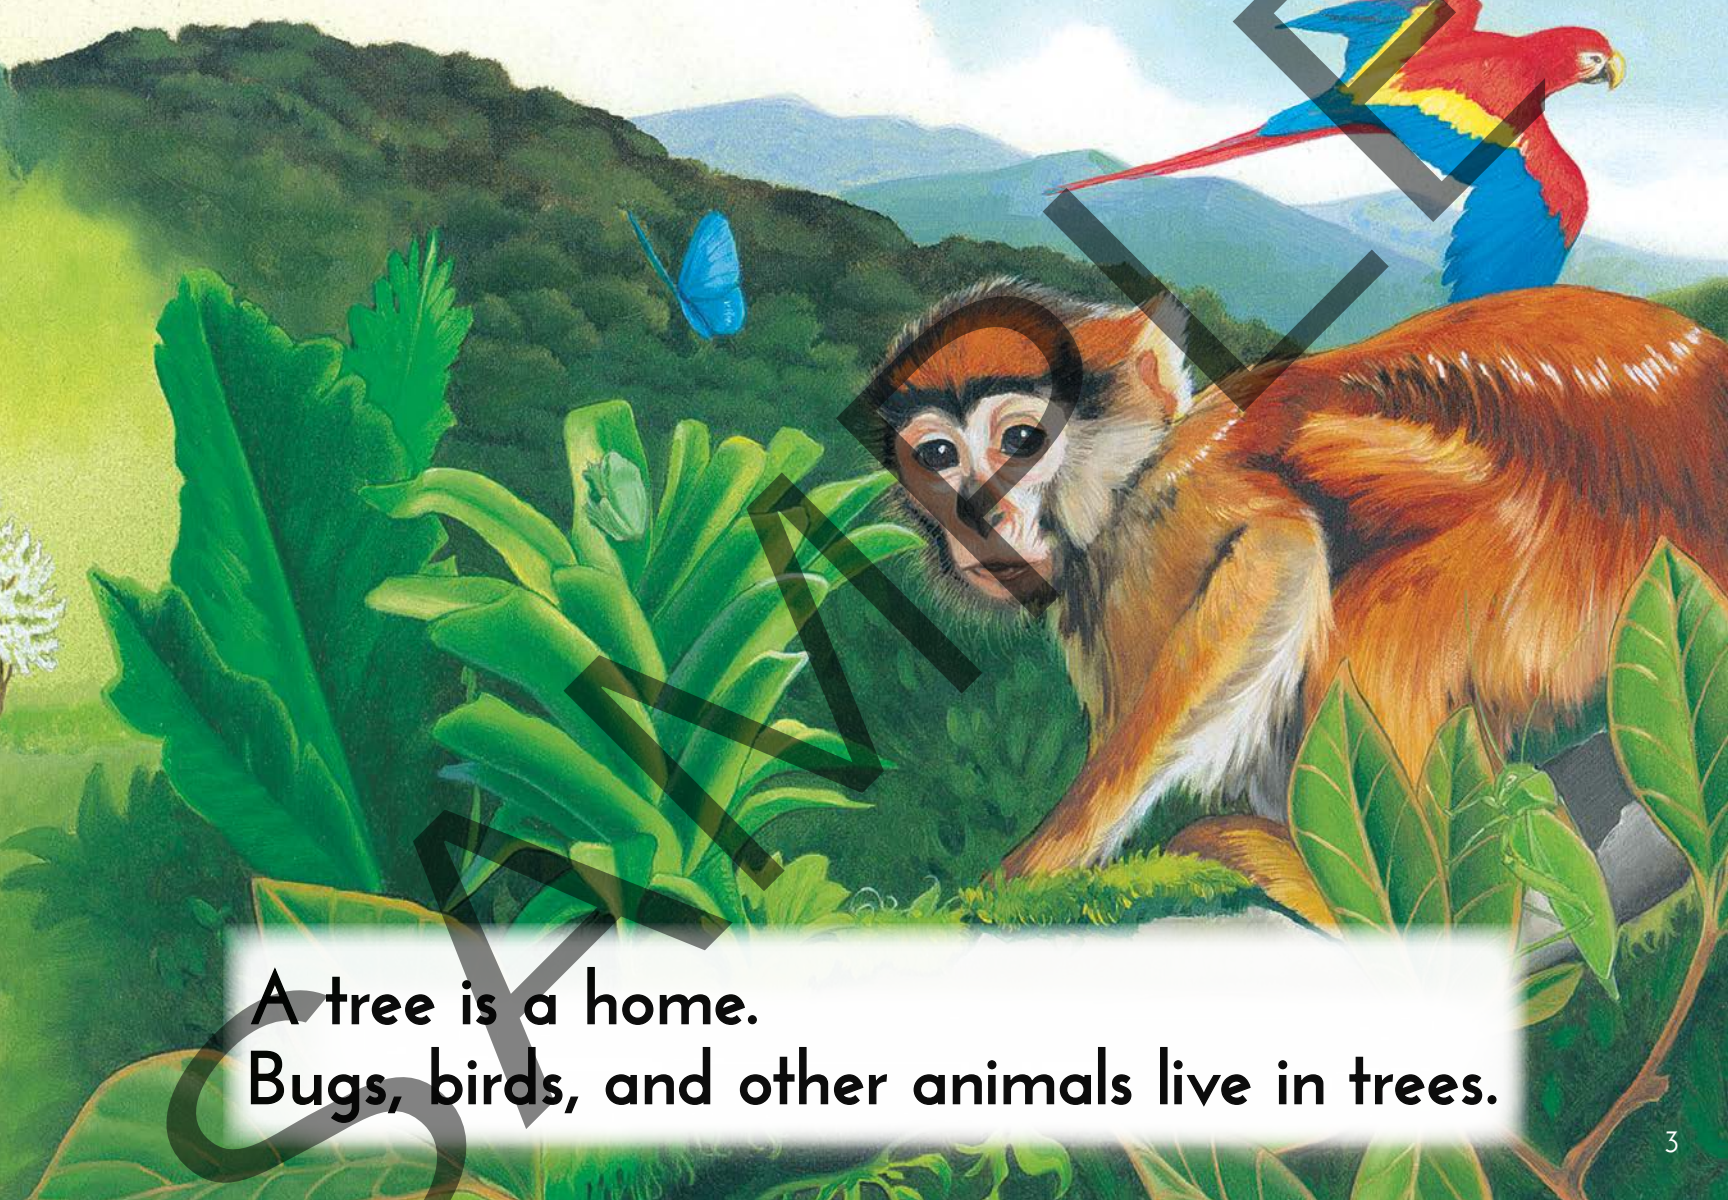

Before Reading	During Reading	After Reading
<p>Q1: What kind of tree do you see on the cover?</p> <p>A1: I see a pine tree.</p> <p>Q2: What animals live in this pine tree?</p> <p>A2: A brown squirrel and a white moth live in this pine tree.</p>	<p>Q1: What trees grow in the different habitats?</p> <p>A1: Cherry trees grow in a pretty garden. Giant cactus trees grow in the desert. Pine trees grow in the forest. Gum trees grow in a woodland. Maple trees grow in a backyard.</p> <p>Q2: What animals live in the trees?</p> <p>A2: A dragonfly and sparrow live in the cherry tree. A butterfly, parrot, and monkey live in the fig tree. A cricket, owl, and lizard live in the giant cactus tree. A moth, hawk, and squirrel live in the pine tree. A beetle, kookaburra, and koala live in the gum tree. A ladybug, robin, and raccoon live in the maple tree.</p>	<p>Q1: Why are trees good homes for animals?</p> <p>A1: Trees provide shelter and food.</p> <p>Q2: The girl loves the maple tree in her backyard! Do you have a special tree? Where is it? Why is it special?</p> <p>A2: Answers will vary: I have a special tree at the park. It's an oak tree. I hide behind it when we play hide-and-seek.</p>

A Tree Is a Home

**There are many kinds of trees.
They grow in many places.**

A tree is a home.
Bugs, birds, and other animals live in trees.
